

PSM AREA - CAPACITY BUILDING, POLICY

TOOL NAME	Indoor Residual Spraying (IRS) Toolkit
SUB-CATEGORIES	Malaria
LATEST UPDATE	2009
VERSION	None
DEVELOPED BY	PATH
WHEN TO USE	This toolkit was developed to help the IRS programme manager understand and plan the details of implementation of an IRS campaign and provides tools for training personnel to conduct digitized enumeration to map the characteristics and locations of houses to be sprayed. The Toolkit contains two sections: Section 1. IRS Implementation Support for Program Managers and Section 2. Enumeration Training Materials.
LANGUAGE(S)	English
LEVEL OF USE	Central, District, Regional
FORM	Web page containing several PowerPoint presentations, PDF documents, Word documents and Excel spreadsheets.
AMOUNT OF TRAINING / TA REQUIRED	The training referred to in the toolkit lasts less than one week. General technical knowledge of IRS is highly recommended.
INPUTS & OUTPUTS	Output: This tool can improve the efficiency and effectiveness of IRS programmes.
COST	Free
ADVANTAGES	Provide guidance, templates and models to support planning and implementation of Indoor Residual Spraying campaigns as well as enumeration of households to be sprayed.
LIMITATIONS	None
